Rossford Food Service Adapts

Rossford Elementary started the year by feeding the students breakfast in the classroom. Students are now picking up their meals at the entrances and taking their breakfast to the classroom.

To accommodate social distancing, elementary students stay at their lunch table and Food Service staff deliver meals to the tables.

Jr. - Sr. High students grab their breakfast at the two main entry doors and take them to their first period class to enjoy.

The Jr. - Sr. High cafeteria still serves students through a traditional lunch line. All foods are wrapped or placed in individual containers. All plastic ware is wrapped as well. We have added an additional serving line, utilizing the Snack Shack.

Beginning October 1, 2020 and until December 31, 2020 all students now eat breakfast and lunch for free. This is available through the USDA Seamless Summer Option. All meals served will be reimbursed at the free meal rate.
